    head and neck, nuclear magnetic resonance spectroscopy of plasma, 244
    head and neck, resection of pulmonary metastases from (abstr), 222
    head and neck, tumor DNA content and (abstr), 221
    oropharynx, iridium 192 implantation, 317
    tumorigenicity and radiation sensitivity, antisense c-*raf*-1 effects (abstr), 367
  thyroid, estrogen receptors in, 322
Catecholamines, motion sickness and, 351
Cerebrospinal fluid, pressure, facial nerve pressure relations, 345
Cheek mucosa, defects, double-door tongue flap for (abstr), 150
Chemosensitivity, squamous cell carcinoma, grown in implantable chambers, 71
Chemotactic activity, middle ear effusion and, 132
Children
  adenoid vegetation, rhinosinusitis relations, 214
  adenoid-tonsillar hypertrophy, sleep disturbances due to, 143
  auditory brainstem responses, high-risk infants (abstr), 436
  cutaneous vascular lesions, laser therapy for (abstr), 365
  hearing disorders, fetal alcohol syndrome and (abstr), 67
  mandibular fractures (abstr), 67
  maxillary and ethmoid sinus opacification, infant (abstr), 437
  mild laryngomalacia, infant (abstr), 295
  port-wine stains, flashlamp-pulsed tunable dye laser treatment (abstr), 365
  radiotherapy, tumors of brain and nervous system after (abstr), 220
  sinusitis, intracranial abscess associated with (abstr), 151
Cholesteatoma, middle ear, colony-stimulating factor in, 394
Chondritis, suppurative (abstr), 150
Chondrosarcoma, base of skull and cervical spine, charge particle irradiation (abstr), 366
Chordoma, base of skull and cervical spine, charge particle irradiation (abstr), 366
Chronic inflammatory disease, with lichen planus, cancer of the oral cavity and, 314

Clinical Testing of the Vestibular System (book review), 223
Cochlea
  calcium gradients, 371
  function, degenerative changes and otosclerotic foci correlation, 1
Cochlear aqueduct, endolymphatic sac and, surgical approach, 61
Cochlear implantation, treatment of sensorineural hearing loss (abstr), 365
Collagenase, production, polymorphonuclear leukocyte role in, otitis media, 198
Colony-stimulating factor, middle ear cholesteatoma, 394
Computed tomography, oral cancer recurrence assessment, 161
Cutaneous vascular lesions, laser therapy, children (abstr), 365
